## **Introduction**

The warrantee township maps are a useful tool in researching your family history and provide an excellent means of visualizing the location of a specific piece of property within the borders of a specific township.

However, when you want to quickly determine if a specific name can be found on the map, it can be difficult to do. Frustrated by having to search the map for each name I wanted to locate, I decided to create an index for each township map that I use on a regular basis. This is the index for Providence Township, Lancaster County, Pennsylvania.

Each index includes the following information (as available):

- the tract number (if one is assigned on the map)
- the name of the warrantee
- the name of the patentee
- the patent (book, volume, and page)
- the survey (book, volume, and page)
- tract name

If a tract number is provided, you can identify the piece of land by that number. If no tract number is provided, then use the warrantee's name to locate that tract. Either the tract number or warrantee name will be written on each piece of property on the map.

The survey books are available online. You can find them at the [Pennsylvania State Archives website](#). While the patent books are not online, you can order a copy of the patent or warrant from the Pennsylvania State archives using their [order form](#).
