Introduction

The Lancaster County Recorder of Deeds has made digital images of the deed books for 1729 through 1986 available online. However, only those records from 1981 through the present are indexed online.

Images of the Lancaster County Deed Books Grantor Index are available online through the web site of the Southern Lancaster County Historical Society. However, extracting information from these images means finding the appropriate page for surname and first name then viewing each image one by one. Some of the image files are missing.

Furthermore, some of the pages listed on these images for the *physical* books do not seem to be available in the *online* deed books.

This ebook series is my attempt to provide a more accurate index to the deed records that are currently accessible online. Each set of deed books is listed twice—first, sorted by grantor, and second sorted by grantee—in order to allow for quick surname look-ups.

Please check all surname spelling variations. I copied the surnames as I found them and the spellings were not always consistent—even within the same deed.

Each listing provides the following information:

- Image number
- Grantor information, including name and residence as reported in the deed
- Grantee information, including name and residence as reported in the deed
- Deed information, including volume and page number, date of deed, date recorded, and either the property location or type of deed (i.e. quitclaim, mortgage, etc.)
- Miscellaneous notes (refer to Grantor)

There is a loose correlation between the page number and the image number, but as some pages were apparently filmed multiple times and included online, there is not always a direct match. The image number is included in the index to provide easy and direct access to the correct image online.

If you have questions, please feel free to contact me through my web site (<http://www.krishocker.com/>).

Happy hunting!

Lancaster County Townships

Lancaster County was formed in 1729 from part of Chester County and its boundaries included present day Lancaster County, part of Dauphin County, part of Lebanon County, part of Berks County, part of Cumberland County, York County, Adams County, and most of Franklin County. There were 17 original townships:

1. Donegal
2. Hempfield
3. Conestoga
4. Martock (Martic)
5. Drumore
6. Warwick
7. Manheim
8. Lancaster
9. Lampeter
10. Sadsbury
11. Salisbury
12. Leacock
13. Caernarvon
14. Earl
15. Derry
16. Paxtang (Paxton)
17. Lebanon

Cocalico Township was added in late 1729, after the formation of the original townships.

By 1750, these additional townships had been added to present day Lancaster:

1. Lancaster Borough (1730)
2. Little Britain (1738)
3. Colerain (1738)
4. Brecknock (1740)
5. Rapho (1741)
6. Bart (1744)

By 1760, these additional townships were added to present day Lancaster:

1. Elizabeth (1757)
2. Strasburg (1759)
3. Manor (1759)
4. Mount Joy (1759)

York County was carved out of Lancaster in 1749 and Cumberland County was created in 1750, limiting Lancaster County to land east of the Susquehanna River. Berks County was created in 1752, removing more land from the county. Its boundaries were further whittled down by the formation of Northampton County in 1772, Dauphin County in 1785, and finally Lebanon County in 1813.
